businesses with potential investors

GHL INDIA

In this digital age, we are striving to achieve our financial goals. Here's where GHL stands out, helping everyone reach their financial goals too. Yes, at GHL India, we're more than just a fintech alternative investment platform; we're a bridge between promising businesses and eager investors, empowering individuals through profitable partnerships. GHL India drives economic growth for both businesses and investors by strategically investing in crucial sectors, nurturing key businesses, and cultivating lasting partnerships.

OUR BUSINESS

GHL INDIA HAS ITS PRESENCE IN

PROPERTY TRADING

GHL INDIA identifies the most demandable distressed properties at undervalued price and list the properties in our platform for funding from the investors. Once the required fund is mobilized, properties will be bought, developed, and sold to the ready buyers within a short span for substantial profit. Since the properties are bought lower than the market value, they do not require any kind of appreciation immediately to make reasonable profit. The funds required for the business are raised as a debt through debenture issuance of a private limited company. This private limited company will be called a special purpose vehicle (SPV) as it looks after the specific business operation. The individuals or entities that purchase the debentures will be considered as lenders or creditors

THE DEBT FROM THE CREDITORS IS SECURED BY WAY OF CHARGE/MORTGAGE/HYPOTHECATION OF ASSET

WHOLESALE TRADING

GHL INDIA identifies the potential wholesale suppliers of seasonal consumable goods that have a minimum of 10 business clients like canteens at colleges, hospitals, and hotels to act as a soleselling agent for them. Once the terms are finalized with the wholesale suppliers, the plan will be listed on our platform for funding from the investors. With the raised funds, high-quality seasonal consumable goods will be bought directly from the farmers at very low cost and sold to the wholesale suppliers to make substantial profit for the agreed period. The funds required for the business are raised through an LLP firm as a capital contribution from the investors. This LLP firm will be called a special purpose vehicle (SPV) as it looks after the specific business operation. The individuals or the entities that invest in the LLP firm will be considered as simple partners

THE CAPITAL CONTRIBUTION OF THE SIMPLE PARTNERS IS SECURED BY WAY OF CHARGE/MORTGAGE/HYPOTHECATION OF ASSET

INVESTMENT STRATEGY

FRACTIONAL INVESTMENT

Fractional investment refers to an arrangement wherein group of investors pool their funds to purchase a high-value asset through a Special Purpose Vehicle (“SPV”). The asset here can be anything such as residential property, commercial property, machinery or a warehouse. This approach reduces the financial burden on a single investor to buy a High Value Asset and allows the investor to earn returns on the investment.

How investment is processed?

Taxation

As GHL India chooses Limited Liability Partnership firm (LLP) as the form of business for Special purpose Vehicle (SPV), the monthly payout is not taxable in the hand of investors under Section 10 (2A) of Income Tax Act, 1956.

DEBT FUNDING

Debt Fund investment is fixed income instruments such as Loan, Debenture, Corporate Bonds and corporate debt securities. Debt financing occurs when a company raises money by selling debt instruments, most commonly in the form of loan or Debentures. Principal value, repayment term and the interest rate are mentioned in the Debenture Certificate. Individuals or entities that lend a Loan or purchase the Debenture become creditors to the business.

In GHL India, the Debt is secured by way of charge/ mortgage/ hypothecation of Asset

How investment is processed?

Taxation

Interest paid against loan or debenture in any form of business is subject to TDS at a rate of 10% under Section 195 of Income Tax Act, 1956.
