Easy To Invest

Diversified
Investment Options
Available With
Minimum Investment

Investments
Are Secured By
Physical Assets

Fixed Returns
-Low Volatility

Why to choose GHL India Co-investment?

Our platform offers an opportunity to invest in operational lease of physical assets like industrial equipments, machineries, vehicles, furniture, etc., for business operation of corporates, innovative startups and MSME. These assets will be owned and maintained by a special purpose vehicle (SPV) created for the purpose. The leasing income will be distributed as return on investment.

Small Investment Options

– Investment Starting From **Rs.10,000**

Short Lock In Period **18 To 24 Months.**

Secured By Physical Assets

– Investment Will Be Secured By Physical Assets For Lower Risk.

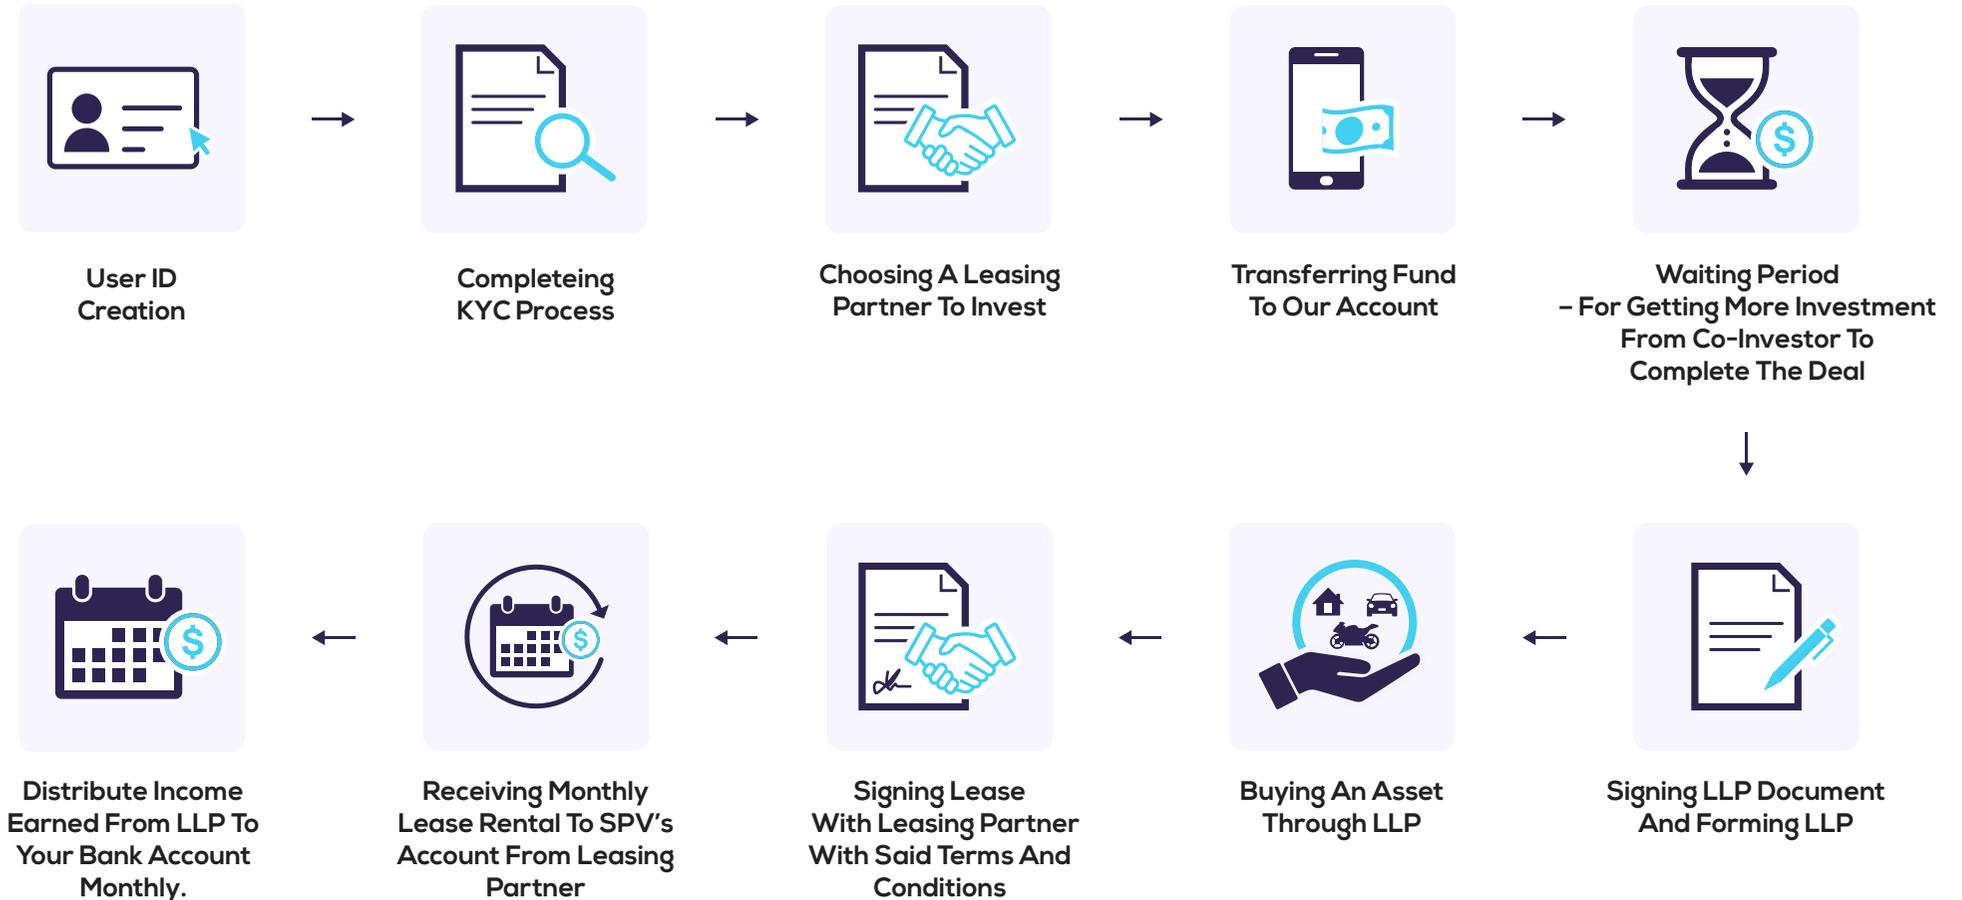

Stable Returns

– Returns Are Based On Leasing Income Of Equipments/machineries, It Won't Fluctuate More With Market Operations.

Why you choose leasing of an asset as an investment option?

- Large and small scale industries, especially MSME are looking for machineries and equipments for their process.
- Cost of machineries and equipments are higher for owning so they consider leasing as cost effective.
- This exigency provides us an opportunity for investment, where SPV lease physical assets owned by it and get regular monthly returns through lease rents.

How investment is processed in our platform?
